NOTES

In general schools are listed by county and, within each county, by municipal district, town or city. Amalgamated school board areas, which in some cases overlap county boundaries, are listed separately at the beginning of the directory.

Included as appendices are:

- A - a list of schools having pupils enrolled in senior high school grades;
- B - a list of regional vocational schools;
- C - a list of locally appointed supervisory personnel;
- D - a list of local school authorities and their secretaries;
- E - an alphabetical index of schools;
- F - a list of inspectors of schools.

Approximate enrolments are given as of September 30, 1981. The number of pupils enrolled, and the number of teachers employed, may vary appreciably throughout the school year. In addition, the figures for the number of teachers may in some cases include part-time teachers, while for other schools only full-time teachers are reported in the totals. The statistics in this directory may therefore not tally with the statistics in the annual report of the Department of Education for the corresponding school year, or with those in other directories.

It should also be noted that the number of teachers indicated in the totals includes teachers and supervisory staff not associated with a particular school. Therefore, the total in the "T" column will generally not be equal to the sum of the figures in that column.
