## Food and Beverage Standards for Nova Scotia Public Schools

### Food and Beverage Standards for Nova Scotia Public Schools

The Food and Beverage Standards for Nova Scotia Public Schools are based upon *Canada's Food Guide to Healthy Eating*. They provide nutrition criteria, suggestions, and detailed lists of healthy options that can help inform decisions about the food and beverages served and sold during the school day.

**"Moderate Nutrition" items can be served or sold no more than 2 times per week or make up no more than 30% of choices at one location.**

- Food and beverages that are part of the four food groups of *Canada's Food Guide to Healthy Eating*
- Contain essential nutrients for growth, learning, and health (e.g., vitamins, minerals, protein, carbohydrate, essential fatty acids, fibre, and water)
- **Choose these items less often, as they may be lower in fibre and higher in fat, salt, sugar, artificial sweeteners and/or processing compared with items of Maximum Nutrition.**

### Milk Products

#### Food for Thought...

- Select items that list milk as the first or second ingredient (this does not include cream).
- Choose these items less often because they are higher in fat compared to items in the Maximum Nutrition list: whole (3.25% MF) fluid milk, yogurt, and soy products.
- Choose these cheeses less often because they have more fat (i.e., more than 20% MF but less than 32% MF).

#### Nutrient Criteria...

**Fat:** May contain no more than 8 g total fat per serving  
May contain no more than 5 g saturated and trans fat combined per serving

**Sodium:** May contain more than 480 mg but less than 960 mg per serving

**Sugar:** Flavoured milk with no more than 28 g sugar per 250 mL  
artificial sweetener: may be present.

### Mixed Foods

#### Food for Thought...

- Select, items that say 'lower in fat', 'low in saturated fat', 'trans fat free', 'lower in salt', and 'reduced in sugar'.

### Vegetables and Fruit

#### Food for Thought...

- Try local fresh fruit and vegetables in season.
- Use frozen or canned items to increase variety when fresh choices are unavailable.
- Select items that list a vegetable or fruit as the first or second ingredient, not including water.
- Select items that say 'lower in fat', 'low in saturated fat', 'trans fat free', 'lower in salt', or 'reduced in sugar'.

#### Nutrient Criteria...

**Fat:** Less than 5 g total fat per serving  
Less than 2 g saturated and trans fat combined per serving

**Fibre:** May contain less than 2 g per serving

**Sodium:** May contain more than 480 mg but less than 960 mg per serving

**Sugar:** May contain added sugar or artificial sweetener

### Grain Products

#### Food for Thought...

- Select items that list grains as the first or second ingredient and contain enriched white flours or mixed flours made from wheat, rice, oats, corn, barley, etc.
- Select items that say 'lower in fat', 'low in saturated fat', 'trans fat free', 'lower in salt', or 'reduced in sugar'.

#### Nutrient Criteria...

**Fat:** No more than 5 g of total fat per serving  
No more than 2 g saturated and trans combined

**Fibre:** May contain less than 2 grams per serving

**Sodium:** May contain more than 480 mg but less than 960 mg per serving

**Sugar:** May contain added sugar or artificial sweeteners

### Meat and Alternatives

#### Food for Thought...

- Select items that list a meat or alternative as the first or second ingredient.
- Choose these cuts of meat, poultry, and fish less often because they have more fat or saturated fat.

#### Nutrient Criteria...

**Fat:** No more than 10 g total fat per serving  
No more than 4 g saturated and trans fat combined per serving

**Sodium:** May contain more than 480 mg but less than 960 mg per serving
