

LANGUAGE & COMMUNICATION

We know children feel a sense of belonging when their interaction styles, ways of communicating, and first language are valued and supported. We support children through playful interactions and encouraging children to express their feelings, thoughts, ideas, and questions through a range of tools and media.

- ▶ How do we encourage children to interact with the learning environment(s) and others?
- ▶ How do we ensure children's and families' first language is present in our program?
- ▶ How do we create opportunities for children to express their ideas, ask questions, and share stories?
- ▶ How do we promote literacy and numeracy in our program?
