

To: TIENET Leads, Student Services Coordinators, SchoolsPlus Supervisors
Date: June 2022

Timing of the TIENET End-of-Year Process

In previous years, the **TIENET End-of-Year (EOY) processing** has taken place during the 3rd week of July.

Starting this summer, the TIENET EOY process will take place between July 5-7 to match the timing of the PowerSchool EOY process (July 4-7).

Both PowerSchool and TIENET will be unavailable for most users during the EOY processing on the date(s) for your region/board (see “Schedule of Planned Downtime 2022” below).

If you require data from either system during those times, contact your region’s PowerSchool or TIENET lead.

Once PowerSchool and TIENET have completed their EOY processing, 2022-23 will become the current school year in both systems.

PowerSchool Outage

There is a scheduled outage for the **PowerSchool Upgrade** which will take place during the last week of July (see “Schedule of Planned Downtime” below). The outage is expected to last one day for most regions (two days for HRCE).

The PowerSchool and TIENET lead in your region will have a mechanism to retrieve data from either system, if needed.

Schedule of Planned Downtime (2022)

TIENET EOY Process

July 5th - July 7th

PowerSchool EOY Process

RCE/CSAP	Dates
AVRCE	July 6 th
CBVRCE, SRCE	July 4 th – 5 th
CCRCE	July 5 th - 7 th
CSAP	July 5 th
