### Returning Graduates (RG) and Graduating Students After First Semester

Returning Graduates are students that have earned the NS High School Diploma but return to school for all or part of an additional school year.

Returning Graduates who have completed his or her studies, and students who have met their graduation requirements after first semester, ***should not be transferred out*** of the school.

These students are to be accessible to the schools until the end of the year; they will be moved to the Graduated Students School during the End of Year process along with other graduating students.
