School Summary Assessment Results Report

User Guide

Revision Date:
May 15, 2024

School personnel can run a Summary results report for Provincial Student Assessments. The report displays the roll-up results for students who wrote a given assessment. The report summarizes information for those students who wrote the assessment at the school, not where students are currently enrolled. The report can be printed and/or exported to Excel.

1. From the PowerSchool Start Page menu, click on **Data and Reporting**, then **Custom Reports**.
2. Click on the header **Administrator** to expand the section.
3. Select the report called **Assessment Reports – Summary Results**.
 - A. Select Assessment: select the report you wish to run from the dropdown list: all the current NS Provincial Assessments are listed.
 - B. Select Assessment Year: From the dropdown list, select the year in which the assessment you selected was written. You can run only one year at a time. Note that most assessments began in 2012-13.

If you select an assessment from the dropdown list, but select a combination of parameters that have no data, you will get a blank report. E.g. you select Mathematics in Grade 4 and the year 12- 13: the province did not administer Mathematics 4 in 12-13 so the resulting report will not display any data.

4. Once the parameters have been selected, click **Submit** to generate the report. The results can be viewed on the screen.

School:		School #	%
Assessment: Mathematics in Grade 6			
Assessment Year: 13-14			
All students:	total # enrolled	33	100
IPP and did not participate:		1	3
Exempted and did not participate:		0	0
Participation rate:	# who participated	32	97
Not enough evidence:		1	3
Students who received a level:	Total number	31	93.9
	Level 3 and above:	19	61.3
	Level 4:	0	0
	Level 3:	6	19.4
	Level 2:	6	19.4
	Level 1:	6	19.4
Mean scaled score:		466
